Welcome

We, the KAPITO Team, send our best regards from the most liveable city in the world! Münster was awarded this international distinction a few years ago – which is yet one more reason to present our city and our language school to you. Whether you want to learn German in preparation for a university study course, or because you need it for your job, or simply for the fun of it, you can be sure of finding the right programme at KAPITO. We offer a broad range of language courses, accommodation options and interesting social activities. And we create a personal atmosphere to make sure you feel at home and have your head free for the new language and culture.

See you soon in Münster!

School

KAPITO is located in Münster because the German spoken here is accent-free. The guiding principle of our school is that the student always comes first. From your very first day until the presentation of the final certificate, we are committed to ensuring that your stay in Münster is a success.

On average, the courses are attended by between 120 and 150 students, with 200 in summer. Some students stay for 2 or 3 weeks, many for 3 to 6 months, and a few even stay for up to a year, for instance to prepare for a university course in Germany.

For more than 20 years now, the focus of our work has been on German courses, though we also offer other languages in the evening, e.g. in preparation for the TOEFL examination.

The school is located in the middle of town and has large, bright classrooms, which are also available as a meeting place for the students

outside of lessons. We attach very great importance on personal contact with our students – and the teachers and school management always have time to talk. Self-study rooms with text books, computers connected to the internet and a Wi-Fi hotspot can all be used free of charge. A member of staff is always on hand in the afternoons to provide learning and homework support.

Our experienced team is made up of 25 to 30 dedicated and qualified teachers. Their continuing education and their enthusiasm for teaching help to ensure our student's success in class.

Teaching

The tuition is clearly structured and oriented to the Common European Framework of Reference for Languages. Modern media, up-to-date course material and a combination of text and vocabulary work, grammar, phonetics and conversation, make effective learning possible.

The classes are small and made up of people from various countries, and the emphasis is always on the practical use of language, i.e. on the participants' ability to speak and understand. Each group is taught by two tutors, and the most important thing is that from the very first lesson, the teaching language is German.

KAPITO stands for quality: the teaching and school organisation are regularly checked by independent inspectors. KAPITO is member of "International Association of Languages Centres – IALC" and recognised by the Swedish student aid organization (CSN).

Courses

Course Levels

KAPITO offers all languages levels year-round, which correspond to levels A1–C1 of the Common European Framework. Information about the Common European Framework can be found at www.kapito.com.

After completing level B1, the students are able to cope both in spoken and written German with all of the most important situations in everyday and working life. After completing level C1, the students can understand texts of a complex and demanding nature and express themselves correctly and appropriately both orally and in writing. Before the start of the course, the participants' knowledge of German is tested to ensure they are placed in the right course and so achieve the maximum learning success. At the end of the course, the participants are issued with a graded certificate.

In our university course, we prepare participants for the university entrance language examinations TestDaF and DSH. The course comprises a basic module (beginners) and an advanced module (non-beginners). The basic module lasts 24 weeks and works on levels A1, A2 and B1. The advanced module continues on level B2 and lasts 12 weeks. The last 4 weeks of the advanced module are devoted mainly to training for the examination.

The language teaching is geared right from the start to meeting the university entrance examination requirements and to providing you with the language skills you will need during your university studies. Working in small groups with at most 12 participants, you learn not only grammar and everyday communication but also, from a very early stage, how to work with written texts, to produce written work on specific topics, to understand lengthy and complex listening texts and take notes from them, etc.

The basic and advanced modules each have 24 lessons per week; the total course lasts 36 weeks and therefore comprises altogether 864 lessons. You also have the possibility of taking part in free learning support and homework supervision in the afternoons.

All of which ensures a relaxed atmosphere and makes your stay in Münster an eventful and stimulating experience. This cultural and social programme is included in the course price.

Münster

With around 55,000 students, Münster is one of the largest university cities and one of the most popular places to study in Germany. Young people set their stamp on the rhythm of life in Münster and create a unique, lively atmosphere. The bicycle is the most important means of transport in Münster and has long been a symbol of this environmentally conscious city.

The picturesque historical centre of the 1200-year-old city with its many churches and museums also offers a delightful contrast to the many examples of modern architecture.

The Promenade, which surrounds the entire city centre, the numerous parks and the Aasee Lake are ideal for relaxing outdoors.

City festivals, music festivals, art exhibitions, flea markets – there is always something going on, and the many visitors from all over the world can look forward to a warm and friendly welcome.

At the weekend, you can take a trip into the lovely countryside around Münster or visit one of the nearby nature conservation areas or one of the over 100 moated castles of the Münsterland.

And if you wish to go further afield, you can be in Cologne, Hamburg, Berlin or Amsterdam in only a few hours by train.

By air, Münster can be easily reached via Münster-Osnabrück Airport or the airports in Dortmund, Düsseldorf and Frankfurt.

Travel to Münster

Münster can be easily reached by air (Münster, Dortmund, Düsseldorf, Dortmund, Köln/Bonn or Frankfurt airport), rail or road. KAPITO can book airport transfer for you on request which then takes you directly to your accommodation (for details see price list). Students' arrival day is the Sunday before the course begins.

KAPITO will send you the name and address of your host in Münster in the week before the start of the course so that you can inform your host about your arrival details well in time.
